

JOB OPENING: REGIONAL SUPERVISOR

Bucyrus Railcar Services (a division of Bucyrus Railcar Repair, LLC) is setting up regional repair operations in Lima, Ohio and Fort Wayne, Indiana. We are looking for one regional supervisor in each city that can oversee a team of 5-15 workers over time as we ramp up. The physical work consists of interchange/yard inspections for our railroad customers with light repair, some welding and other mechanical services as needed.

The ideal candidate would have:

Computer skills mandatory (Word, Excel, online systems and data entry)

Railroad carman or other rail experience preferred

Welding experience and certifications are ideal

Some college or equivalent work experience

Supervisory experience, preferred but not necessary

Quick decision maker with an ability to think on their feet

Will be an in-the-elements job working alongside their team outdoors in rail yards and industrial sites

\$45,000 with quarterly bonus potential

Benefits include health, vision, dental, life insurance and retirement plan, as well as a profit-sharing mechanism

While this is a weekday position, the operation is 7-days / week, so some weekends may be required on an as-needed basis or on-call

As these are new regions, the supervisor will be tasked with building their team with our assistance, training them, tracking repairs, hours worked and scheduling, and developing new business within the region.

The candidate will be hard-working, honest, self-motivated, looking to build a career with a quickly growing company, and professional while dealing with both customers and leading their team.

Email your resume and a brief email cover letter to: info@tcrailholdings.com

Bucyrus Railcar Services provides various rail services, such as running repair, railcar cleaning or offsite field inspections, and full operational management of rail and rail-served facilities.
